Riverhead Facility Upgrade | May 2025

Dear neighbor,

Beginning June 2025 through the winter of 2025, our crews will be upgrading our existing facility on Mill Road and Main Street in Riverhead, NY. **There will be no interruption to the gas service for our customers.**

Increasing our capacity to serve the community:

National Grid's Riverhead facility supports the local energy system in the event of extreme cold weather days. The facility upgrades include installing additional truck loading stations and building a new maintenance and control building for our operations crew.

What to expect:

- Excavations within the facility and in the roadway and/or sidewalks on Mill Road.
- Road plates to secure and cover excavations after construction hours.
- Traffic flaggers to assist traffic on Mill Road when necessary.
- Quality assurance testing activities.
- **For your safety, please do not enter work zones and be mindful of construction signs and cones.**
- Restoration activities at the conclusion of the project.
