Energy news for our electric customers in Massachusetts

Here for you with solutions to help manage your energy bill

As we begin to see the first signs of spring after a long, cold winter in Massachusetts, we understand that managing higher electric bills alongside rising household expenses has been challenging.

As part of ongoing efforts to reduce energy bill impacts, the Healey-Driscoll Administration recently announced an Energy Affordability Agenda, which, among other elements, provides residential electric customers with a \$50 credit on their April bill.

We are committed to delivering safe and reliable energy to you and the communities we serve. We recognize that affordability is a significant concern, and we'll continue working with regulators, elected officials, and others on efforts to provide longer-term rate relief.

We offer various programs and services to help you manage your energy bill, access financial assistance or request a payment plan if needed.

Electric Emergency: 1-800-465-1212

- If you've added new electrical equipment or made changes that could affect the capacity or function of our facilities, please contact us to determine whether an inspection may be needed.
 - Whenever working outside, remember to look up. Overhead power lines are not insulated and carry enough energy to cause serious injury – even death. Keep tools, ladders and equipment safely distanced from overhead power lines, and ensure that contractors on your property are working safely.
- If you see a downed power line, always assume it is live and hazardous. Keep everyone away and report it to us or call **911**.

Customer Service: 1-800-322-3223

► Know how to spot a scam.

Every National Grid employee and all contractors doing work for us carry a photo ID card. If someone requesting entry into your home or business does not show an ID card, don't let them in. If you feel you are in immediate danger, call **911**.

What to know before you dig

Before springing ahead with home improvement or landscaping projects—whether doing it yourself or hiring a professional—always call **811** to ensure underground public utility lines can be marked before digging. It's the law, and it can prevent loss of life, injury and property damage.

Keep in mind that **811** will not mark out customer-owned utilities on your property. To prevent injury and damage, customers are responsible for ensuring all private utility lines are marked before excavation. Call **811** or **1-888-DIG-SAFE (344-7233)** or see digsafe.com

Examples of private underground utility lines include:

- Sprinkler or irrigation systems
- Electric lines running to a detached garage/shop
- Lines connecting a propane tank or septic system
- Underground gas lines for grills, fire pits, generators and/or pool heaters
- Electric dog fencing

Go Paperless

When you switch to Paperless Billing, you'll be on your way to spending more time doing the things you love and enjoying these added benefits:

- Get bills and pay all online
- Receive a bill credit each month
- Access your bill anytime, anywhere

Choose the right tree to reduce energy use

For cooling shade and natural energy savings, plant trees that shed leaves on the south and east sides of your home. Be sure to plant away from overhead lines and call **811** before digging (see left).

For help choosing the right tree, see our link or call your local nursery.

Report energy theft

Tampering with or bypassing meters or pipes puts lives in danger and threatens public safety. If you have information on energy theft, call **1-800-322-2234**. Calls are confidential.
