

Summary of Rates

Massachusetts 2024

Your electric bill is divided into two sections: supply and delivery. The supply section is the cost of the electricity you use. Power supply can be purchased on your behalf by National Grid or you can choose a competitive supplier. A list of competitive suppliers is available at ngrid.com/masschoice. The delivery section of your bill enables National Grid to operate and maintain the infrastructure that transports electricity to your home or business. National Grid is a delivery company, so we will continue to deliver electricity to you – and the delivery section of your bill will remain the same – even if you choose a competitive supplier. Both the delivery section and the supply section (if you choose National Grid as your supplier) of your bill are approved by the Massachusetts Department of Public Utilities (DPU), a regulatory agency that is responsible for ensuring that electric rates are fair to customers and utilities alike.

Supply of electricity – Basic Service

If you do not select a competitive supplier, National Grid will purchase your power for you. This is called “Basic Service.” National Grid does not mark up the price of power supply. We purchase electricity on your behalf and pass the costs directly through to you. With Basic Service, you pay what we pay. You can determine whether National Grid is your supplier by looking at “Supply Services” on your electric bill. If you are a Basic Service customer, National Grid will be listed as your supplier in this section. As a Basic Service customer, you have two pricing options available to you—a Fixed Price and a monthly Variable Price.

The Fixed Price option maintains a steady rate for a specific time period (six months for most customers and three months for large business customers). While the Basic Service rate is fixed, your bill could still fluctuate depending on the amount of electricity you use.

For residential, small business and street lighting customers. The Fixed Price Basic Service rate will change every February 1 and August 1. Medium and large business customers will continue to follow the same Fixed Price Basic Service rate change schedule of February 1, May 1, August 1, and November 1.

With the Variable Price option, your Basic Service rate fluctuates each month based on the market price National Grid paid to purchase electricity on your behalf. National Grid will set the rates for each period in advance.

Fixed Price

All residential (R-1 and R-2) and small business customers (G-1) receiving Basic Service are automatically placed on the Fixed Price. Customers are allowed to choose the monthly Variable Price option, but they can only switch once.

If you are a medium or large business customer (G-2 and G-3) and decide to switch from Fixed Price to a competitive supplier before the 3 month pricing period is over, your electric bill will be recalculated as if you had been using the Variable Price option for previous months in the period. This ensures that all medium and large Basic Service customers pay the actual cost of the electricity they have used. This adjustment will be reflected on the bill prior to your switch to a competitive supplier.

Variable Price

All medium and large business customers (G-2 and G-3) and street lighting customers receiving Basic Service are automatically placed on the monthly Variable Price. Customers are allowed to choose the Fixed Price option, but they can only switch once.

Pricing Zones

The Independent System Operator of New England (ISO-NE) oversees the power system and its flow of electricity. As part of its design of the New England electricity market, it has segregated New England into geographic locations, or zones. Pricing aims to satisfy demand as economically as possible by zone. Massachusetts has three zones: Northeastern MA/Boston (NEMA), Southeastern MA (SEMA), and Western/Central MA (WCMA).

Basic Service Supply Prices (¢ per kWh)

	Residential	Commercial		
	R-1 and, R-2	G-1 and Streetlights		
Fixed Price Option				
Aug 24 - Jan 25	16.029¢	14.796¢		
Variable Price Option				
Aug-24	15.176¢	13.766¢		
Sep-24	14.548¢	12.731¢		
Oct-24	14.250¢	12.255¢		
Nov-24	15.040¢	13.602¢		
Dec-24	16.841¢	16.441¢		
Jan-25	19.121¢	19.763¢		
		Industrial (G-2 and G-3)		
		SEMA	WCMA	NEMA
Fixed Price Option				
Nov 24 - Jan 25	17.429¢	15.772¢	16.502¢	
Variable Price Option				
Nov-24	15.248¢	10.873¢	12.471¢	
Dec-24	17.221¢	15.500¢	16.033¢	
Jan-25	19.579¢	20.413¢	20.555¢	

Delivery of electricity

Delivery charges enable National Grid to operate and maintain our electric system safely and reliably. Unlike the Supply section of your bill, National Grid does not make a profit on the Delivery section.

Delivery Service Rates

The following is a summary of National Grid's rates in effect as of November 1, 2024. The charges listed may change from time to time. Although selection of a rate schedule is the responsibility of the customer, National Grid will gladly assist you in determining which schedule is most advantageous to you. Certain provisions apply to customers changing from one rate schedule to another.

R-1 – Regular Residential Rate – This is the proper delivery service rate for most of our customers. The R-1 rate is available for all

domestic purposes in an individual dwelling or an individual apartment. Service also is available for farm customers when National Grid delivers all of a farm's electricity. A church and adjacent buildings owned and operated by the church also may be served by this rate unless separated by public ways.

Rates for R-1 Delivery Service

Customer Charge	\$10.00 per month
Distribution Charge	8.549¢ per kWh
Transition Charge	(0.050)¢ per kWh
Transmission Charge	4.100¢ per kWh
Energy Efficiency Charge	3.025¢ per kWh
Distributed Solar Charge	0.681¢ per kWh
Net Metering Recovery Chg	1.767¢ per kWh
Electric Vehicle Prog. Charge	0.038¢ per kWh
Renewable Energy Charge	0.050¢ per kWh

R-2 – Low-Income Rate – This delivery service rate is available to residential customers for all domestic purposes in an individual private dwelling or an individual apartment. A customer may qualify for this rate if the customer is: (1) the customer of record and (2) eligible for the low-income home energy assistance program (LIHEAP), or its successor program, for which eligibility does not exceed 200 percent of the federal poverty level based on a household's gross income; in a program year in which maximum eligibility for LIHEAP exceeds 200 percent of the federal poverty level, a household that is income eligible under LIHEAP shall be eligible for the low-income electric discount, or (3) receive any means-tested public benefit.

For a list of public benefits, see the following section of this insert entitled DISCOUNT RATE FOR ELECTRIC CUSTOMERS.

Rates for R-2 Delivery Service

Customer Charge	\$10.00 per month
Distribution Charge	8.549¢ per kWh
Transition Charge	(0.050)¢ per kWh
Transmission Charge	4.100¢ per kWh
Energy Efficiency Charge	3.025¢ per kWh
Distributed Solar Charge	0.681¢ per kWh
Net Metering Recovery Chg	1.767¢ per kWh
Electric Vehicle Prog. Charge	0.038¢ per kWh
Renewable Energy Charge	0.050¢ per kWh
Low Income Discount	32%

G-1 – General Service Small C&I Rate –

This delivery service rate is designed for small business customers with usage of less than 10,000 kWh per month or maximum demand of less than 200 kW. Delivery service under this rate is available for all purposes.

Rates for G-1 Delivery Service

Customer Charge	\$12.00 per month
Unmetered Charge	\$10.00 per month
Distribution Charge	7.266¢ per kWh
Transition Charge	(0.050)¢ per kWh
Transmission Charge	3.230¢ per kWh
Energy Efficiency Charge	0.886¢ per kWh
Distributed Solar Charge	0.637¢ per kWh
Net Metering Recovery Chg	1.665¢ per kWh
Electric Vehicle Prog. Charge	0.036¢ per kWh
Renewable Energy Charge	0.050¢ per kWh

G-2 – General Service Demand Rate – The G-2 delivery service rate is designed for medium business customers with usage of more than 10,000 kWh per month and maximum demand of 200 kW. It is available for all purposes and contains a variety of special clauses and conditions.

Rates for G-2 Delivery Service

Customer Charge	\$45.00 per month
Distribution Charge	
Demand	\$14.76 per kW
Energy	1.388¢ per kWh
Transition Charge	(0.049)¢ per kWh
Transmission Charge	3.105¢ per kWh
Energy Efficiency Charge	0.886¢ per kWh
Distributed Solar Charge	0.471¢ per kWh
Net Metering Recovery Chg	1.232¢ per kWh
Electric Vehicle Prog. Charge	0.027¢ per kWh
Renewable Energy Charge	0.050¢ per kWh

G-3 – General Service Time-of-Use Rate – This delivery service rate is designed for large business customers. It is mandatory for any customer who has a 12-month average monthly demand of 200 kW or greater for three consecutive months. This rate contains a variety of special clauses and conditions, including different rates during “Peak” and “Off-Peak” hours, which are defined later in this document.

Rates for G-3 Delivery Service

Customer Charge	\$350.00 per month
Distribution Charge	
Demand	\$10.26 per kW
Energy On-Peak	1.081¢ per kWh
Energy Off-Peak	0.822¢ per kWh
Transition Charge	(0.050)¢ per kWh
Transmission Charge	3.314¢ per kWh
Energy Efficiency Charge	0.886¢ per kWh
Distributed Solar Charge	0.274¢ per kWh
Net Metering Chg	0.718¢ per kWh
Electric Vehicle Prog.Charge	0.015¢ per kWh
Renewable Energy Charge	0.050¢ per kWh

Electric Vehicle (EV) Pricing

EV Pricing is available, but not mandatory, to separately metered existing and new Level 2 and Direct Current Fast Charging EV site service locations for a period of ten (10) years beginning July 1, 2023 and ending June 30, 2033. Eligible rate G-2 and G-3 customers will be assigned to one of four available base distribution price schedules and receive a discounted distribution Demand charge based on their load factor (“LF”).

Price Schedule A - 100% Demand Charge Discount: (0% ≤ LF ≤ 5%)

Price Schedule B - 75% Demand Charge Discount: (5% < LF ≤ 10%)

Price Schedule C – 50% Demand Charge Discount: (10% < LF ≤ 15%)

Price Schedule D – No Demand Charge Discount: (LF > 15%)

Please see each tariff for more information.

Special Clauses and Conditions in Commercial and Industrial Rates

Customers on Rates G-2 and G-3 are eligible to receive a discount for High Voltage Metering and Transformer Ownership (High Voltage Delivery) if the customer meets the criteria for receipt of the discounts. There are also other terms not summarized above. Please see each tariff for more information.

S-1 – Company-Owned Street and Area Lighting Service Rate

Street Lighting Service is available under this rate to any city, town, or other public authority. Service under this rate is contingent on National Grid ownership and maintenance of street lighting equipment.

S-2 – Customer-Owned Street Lighting Service Rate

This delivery service rate is closed to new customers. Street Lighting Service is provided under this rate to any city, town, or other public authority. Service under this rate is contingent on customer ownership of street lighting equipment in an overhead street lighting installation and National Grid maintains photocells and lamps.

S-3 – Division of Ownership Street Lighting Service Rate

This delivery service rate is closed to new customers for street lighting service in which the customer owns the underground street lighting system. This rate remains available for underground street lighting systems in which the customer owns the facilities upon which National Grid places its poles and related street lighting equipment.

continued >

S-5 – Customer-Owned Street and Area Lighting Service Rate – This delivery service rate is mandatory for any municipal customer that has exercised its right under G.L.c 164 §34A of the 1997 Massachusetts Electric Utility Restructuring Act, or has transferred customer-owned lights from rates S-2 or S-3 to this rate. This rate is also available to cities, towns, public authorities, or other governmental entities who wish to add customer-owned lights. Service under this rate is contingent on customer ownership and maintenance of street lighting equipment.

S-6 – Company-Owned Decorative Street and Area Lighting Service Rate – This delivery service rate is available for full service, underground served, decorative street and area lighting applications owned by National Grid to any Customer, inclusive of municipalities, governmental authority, or other public authority.

Rates for S-1, S-2, S-3, S-5, and S-6

Delivery Service	
Distribution Charge	
S-1, S-2, S-3, S-6	2.432¢ per kWh
S-5	8.767¢ per kWh
Transition Charge	(0.054)¢ per kWh
Transmission Charge	4.222¢ per kWh
Energy Efficiency Charge	0.886¢ per kWh
Distributed Solar Charge	0.867¢ per kWh
Net Metering Chg	2.264¢ per kWh
Electric Vehicle Prog.Charge	0.050¢ per kWh
Renewable Energy Charge	0.050¢ per kWh

Street Lighting rates
In addition to the energy charges identified above for National Grid’s delivery service under its street lighting rates, the customer will also be charged a luminaire fee and, if applicable, a pole charge. These charges vary depending upon the size and type of street light fixture servicing the customer. Please see each tariff for more information.

Peak and Off-peak hours (G-3 rate Class Only)
On-peak hours are from 8:00 a.m. to 9:00 p.m., Monday through Friday. Off-peak hours are from 9:00 p.m. to 8:00 a.m., Monday through Friday, all day Saturday and Sunday, and holidays. The holidays are: New Year’s Day, President’s Day, Memorial Day, Independence Day, Columbus Day, Labor Day, Veteran’s Day, Thanksgiving Day, and Christmas Day. All holidays are the day of National Observance.

Discount Rate for Electric Customers
We offer a Discount Rate Program for eligible low income customers. You may qualify for the Discount Rate Program if you meet the criteria listed under R-2 Low Income Rate. Some qualifying means-tested public benefits include: EAEDC, Food Stamps, Head Start, Mass Health, Mass Comm Blind Benefits, National School Lunch/Breakfast Program, Public Housing, Supplemental Security Income, TAFDC, Veterans Chapter 115 benefits, Veterans DIC Surviving Parent, Veterans Non-Service Pension, Fuel Assistance, and Women, Infants and Children. Additional benefits not listed may qualify.

Landlord agreements
National Grid offers property owners the opportunity to automatically continue service if the current customer of record requests that service be terminated. This agreement eliminates the need to contact National Grid if such services are required.

Billing and payment services
For your convenience, we offer Payment Plans for past due balances, and Budget Plans for future balances. Budget Plans spread payments out more evenly across the year. We also offer Direct Debit payments from your checking account.

Energy Efficiency
Customers can visit masssave.com for energy savings tips and incentives on a wide variety of energy efficient home equipment, such as smart power strips and programmable thermostats.

Where Can I Get More Information?
If you have questions, need more detailed information, or would like copies of the actual tariff rate schedules mentioned above, please visit our web site at ngrid.com/ma-tariff or call National Grid’s Customer Service Center at **1-800-322-3223**.
