Energy Efficiency Solutions

Installed:

- Indoor and Outdoor LEDs including parking lot lighting

Savings Summary

After reading about National Grid's free energy assessment, they knew it was a no-brainer to call and request one for themselves. Rise Engineering came out to assess their building and made personalized recommendations on which upgrades would benefit them the most. By upgrading their lighting infrastructure, they not only saved money on their monthly energy bill, but they ultimately increased their building's value.

The result:

Total Project cost	\$17,423.38
National Grid incentive	\$10,501.53
Cost to customer	\$6,921.68
Annual kWh savings	49,866.47 kWh
CO ₂ lifetime reduction	59,397 lbs.
Annual cost savings	\$5,758.21

"Getting an assessment was a no brainer. Their generous incentives helped us lower our overhead costs."

-Michael Cudahy- Owner/Partner
